

## What products can I bring?

44 different types of home, office and portable electronics are accepted, including:

- Amplifiers
- Audio and video players
- Cameras
- Cell phones
- Computers and peripherals
- Copiers
- Fax machines
- Monitors
- Pagers and PDAs
- Printers
- Radios
- Receivers
- Scanners
- Speakers
- Telephones and answering machines
- Tuners
- Turntables
- Televisions
- Video projectors

Ontario Electronic Stewardship (OES), a not-for-profit industry organization, oversees the responsible reuse and recycling of waste electronics through its network of more than 600 approved collection sites across the province.

The program was developed in co-operation with Waste Diversion Ontario under the Waste Diversion Act, 2002.

# Recycle your electronics.

Recycling electronics just got easier.

Ontario Electronic Stewardship has set up a network of more than 600 approved collection sites across the province where Ontarians can bring their used, obsolete or unwanted electronic equipment for responsible reuse and refurbishment or safe, secure recycling.

The reason is simple – to recover what can be used again, and safely manage hazardous materials which should never go to landfill.

## Where do I take them?

Right now you can bring your used electronics to a variety of municipal, not-for-profit, retail and other types of depots and special event days. Ontario Electronic Stewardship (OES), the not-for-profit organization charged with implementing this program, is continuously working to set up more collection locations in your area. From there, these items will either be reused or recycled in an environmentally responsible way.

To find a drop-off location near you, go to [recycleyourelectronics.ca](http://recycleyourelectronics.ca)

## Who is funding this program?

The program is funded by fees paid to OES by manufacturers and importers of electronics in Ontario (called Stewards). These funds are used exclusively to pay for collection, transportation, consolidation, and processing of waste electronics as well as research and consumer education programs to encourage greater electronic equipment reuse and recycling.

In some cases, Stewards absorb the fees they pay to OES. In others, Stewards may choose to reflect these costs at the point of purchase. The fees are used exclusively to promote and support the safe and responsible reuse and recycling of electronic waste in the province. None of the funds go to government.

## About [recycleyourelectronics.ca](http://recycleyourelectronics.ca)

[recycleyourelectronics.ca](http://recycleyourelectronics.ca) is the OES consumer website to help you find approved reuse and refurbishment organizations and approved collection points for different types of electronic waste. You can find OES-approved sites by community, by postal code, and even by item.
